REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

At Fort Dorchester Elementary our mission statement, "Fort Dorchester Elementary School is committed to guiding and challenging each student to succeed in life," drives our curriculum decisions to meet the needs of our students. We ended our ninth year serving the instructional needs of 1314 four year old through fifth grade students. Situated in the Wescott community, we are in a transient and fast growing area. Our 112 member faculty and staff work together to create a friendly, family atmosphere for our students and parents.

Fort Dorchester Elementary has strong parent and community support. The outstanding PTA, School Improvement Council and business partners continue to add much to enhance the school's educational programs and environment. Input from these groups allows us to analyze data and look at programs that will provide the best learning environment for our students. Some highlights of our school year, based on support from these groups, include several family night events, a school carnival, Positive Behavior Intervention awards and student awards programs. During the 2010-2011 school year, FDES achieved Palmetto Gold status for overall student achievement and for closing the achievement gap of sub-groups.

While test scores for the school continue to improve, dealing with the transient and growing population of the FDES attendance area and meeting the academic needs of each sub-group of students are Fort Dorchester Elementary's most challenging areas. To meet these challenges we employ our content interventionists, a facilitator and a part-time Instructional Technology teacher specialist. The entire faculty participated in a book study on Explicit Direct Instruction (EDI). We are committed to meeting the needs of every student by offering differentiated instruction for a portion of each day in order to serve each child on their academic level. In addition, we provide staff development for teachers in all academic areas. We will continue to focus on welcoming and assessing the needs of new students as quickly as possible so that we can provide for areas of need. For the 2010-2011 school year, we have worked toward meeting the needs of each individual child. Data collection through the use of DIBELS, one minute testing probes, District and ENI Benchmark tests are used to determine overall and individual student needs. The results of these diagnostic measures help us to determine groups for differentiation in all subject areas. Our plans for the 2011-2012 school year will include staff development in the areas of spelling and developing EDI lessons to maximize instruction. We look forward to successes in all areas. We feel that we have completed a successful year at Fort Dorchester Elementary.
